General Preliminaries

Edition 6.2 – May 2018

JBCC®

EXPLANATORY NOTES AND INSTRUCTIONS

Introduction

The Joint Building Contracts Committee (JBCC®) has compiled the JBCC® General Preliminaries in the interest of standardisation of documentation and good practice in the building industry. The document generally covers all aspects of preliminaries for most types of projects and should consequently simplify the procurement for and the administration of building projects and produce economic advantages to all concerned. Users should note that the JBCC® General Preliminaries has been specifically formulated for use with the May 2018 edition of the JBCC® agreements (PBA and NSSA Edition 6.2, MWA Edition 5.2)

How the document is structured

The JBCC® General Preliminaries is part of the building agreement and subcontract documentation to be referred to in the priced document. It is intended that the JBCC® General Preliminaries (May 2018) be used by reference only in the preparation of the priced document. The project specific preliminaries comprises the following:

- Section A** A recital of the headings of the individual clauses in the JBCC® Principal Building Agreement (PBA), JBCC® N/S Subcontract Agreement (NSSA) or JBCC® Minor Works Agreement (MWA). Modifications to the standard clauses should be avoided. Amendments, modifications, corrections or supplements to the aforementioned agreements may be recorded in the space provided in the relevant JBCC® Contract Data or against the relevant clause numbers in this section
- Section B** A recital of the headings of the individual clauses in the JBCC® General Preliminaries. Changes to the standard clauses should be avoided. Any modifications should be recorded against the relevant clause numbers in this section
- Section C** Any special clauses to meet the particular circumstances of a specific project are embodied in this section

The JBCC® agreements are for use with or without bills of quantities. This brings a consistency in the contractual language used and the administrative procedures required in building agreements

Preface to the project specific preliminaries

- 1 The project specific preliminaries of the priced document should contain the following introduction: "The JBCC® General Preliminaries (May 2018) published by the Joint Building Contracts Committee for use with the JBCC® Principal Building Agreement Edition 6.2 / JBCC® N/S Subcontract Agreement Edition 6.2 / JBCC® Minor Works Agreement Edition 5.2 shall be deemed to be incorporated in these bills of quantities / this lump sum document, amended as hereinafter described

The contractor is deemed to have referred to such document for the full intent and meaning of each clause

The clauses in the document are hereinafter referred to by clause number and heading only

Where standard clauses or alternatives are not entirely applicable to the agreement such amendments, modifications, corrections or supplements as will apply are given under each relevant clause heading and such amendments, modifications, corrections or supplements shall take precedence notwithstanding anything to the contrary contained in the JBCC® General Preliminaries (May 2018)"

- 2 Clauses marked with an asterisk (★) are optional clauses or clauses requiring information relating to the specific project, selection and details of which are to be included in the JBCC® Contract Data

- 3 Where clauses are not used for the specific project these should nevertheless be listed in the preliminaries of the bills of quantities / project specific preliminaries of the lump sum document but marked “Not applicable” or “N/A”
